

# You are invited: Community Improvement Planning Workshop

**Who?** Community stakeholders, developers, policy writers, decision makers

**What?** As part of the five-year Official Plan Review that has been initiated by the Municipality of Port Hope, the Municipality is interested in creating a Community Improvement Plan for the downtown and harbour area. A Community Improvement Plan (CIP) provides incentives and tools for the revitalization of specific areas. Your input as key stakeholders, developers, policy writers, and decisions makers, is vital to the successful implementation of the CIP.

The goals of this workshop are:

- **Create** the boundaries of the Community Improvement Area, which will be supported by the Community Improvement Plan
- **Discuss** the various tools and incentives available and choose those most appropriate for Port Hope

**Why?** The Official Plan Review provides the opportunity to get the necessary policies in place to create the Community Improvement Plan. This is the best chance to get community input and design the most appropriate and viable CIP that will benefit Port Hope for years to come.

**When?** April 16th, 2:00 - 4:00 pm and 6:30 - 8:30 pm

**Where?** Knights of Columbus Hall (Elias St. adjacent to Memorial Park)
